Pallet Dollies

Pallet dollies are used for transporting loaded pallets over short level distances. They enable any operation to keep material movement going without pulling the forklift away from other duties.

Available in 4,000, 6,000 and 8,000 lb. capacities.

Platform Trucks

Formed deck design is strong and lightweight.

- Tread plate or smooth plate decks available.
- Large selection of handles and caster kits to suit your application.
- Two Year Warranty

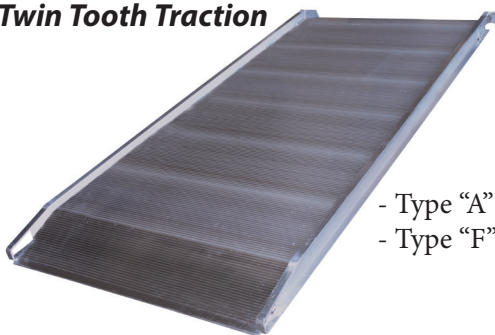

Welded design uses exclusive side rails that lock the deck in.

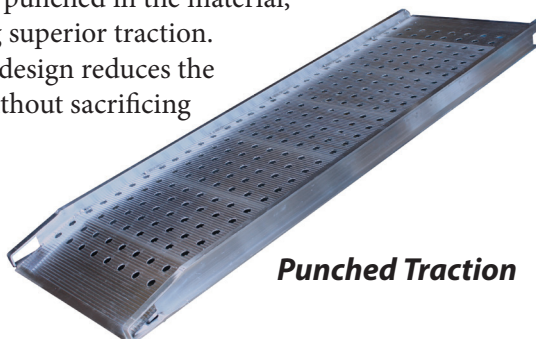

Walk Ramps

Twin Tooth Traction

- Type "A" Apron End
- Type "F" Flush Hook End

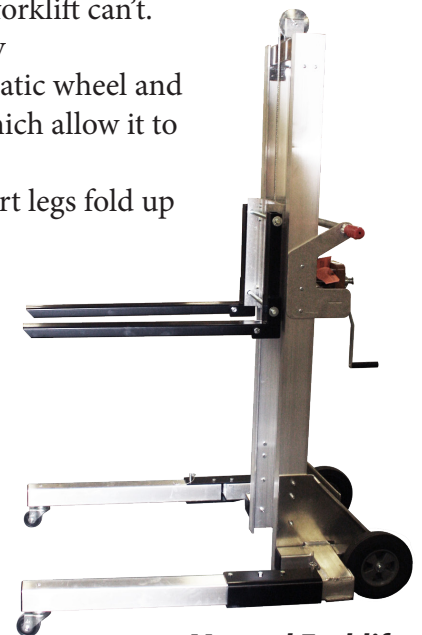

- Holes are punched in the material, providing superior traction.
- Punched design reduces the weight without sacrificing strength

Punched Traction

Lift Around

- Can go where a forklift can't.
- 1,200 lb. capacity
- 10" semi-pneumatic wheel and swivel casters which allow it to move with ease.
- Forks and support legs fold up for storage.

Manual Forklift

Engineered Delivery Equipment

Convertible Hand Trucks

- Frames are heavy duty 600 lb. capacity* (some options are 500 lbs. consult factory)
- Extruded, not cast axle brackets feature a lifetime warranty. Reduce down time and cost of ownership.

- Critical components constructed of aluminum. Won't break like plastic.
- Industry Exclusive Two Year Warranty.

2 Wheel Dollies and Brake Trucks

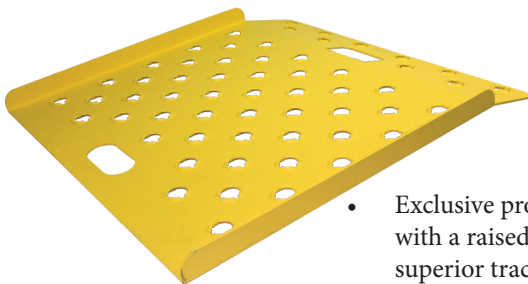

Complete line of components and accessories.

B&P Components are interchangeable with other manufacturers. Upgrade existing fleets to higher quality, longer lasting parts.

Curb Ramps

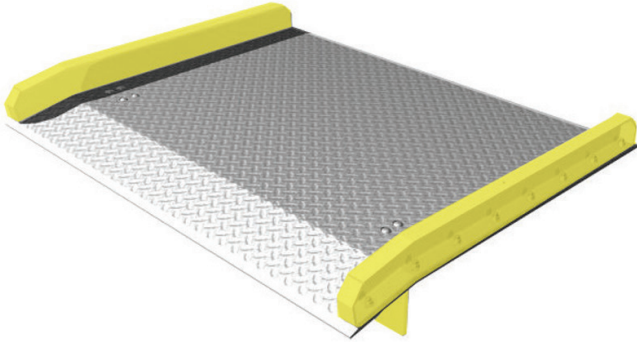

- Exclusive process punched holes with a raised "X" pattern for superior traction.
- Integrated stops keep the ramp stationary on curbs.
- Lightweight and easily transportable.
- Available in high visibility safety yellow. Provides better visibility and theft deterrence.

Hand Trucks, Convertible Trucks and Curb Ramps with a full line of parts and accessories to keep you moving!

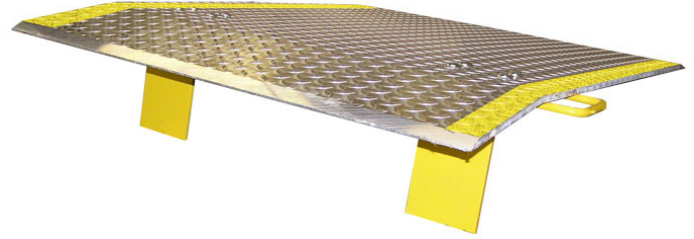

Replacement parts for most brands are just a call away.

Dock Boards

- Lightweight aluminum with heavy duty steel curbs help prevent run off. High visibility safety yellow.
- Bolt on steel legs - Reversible for refrigerated applications.
- Skid resistant surface - Provides excellent traction.
- Available in capacities to 15,000 lbs. and sizes up to 78" x 72"
- Optional lifting chains - Allows board to be lifted/moved with fork lift.

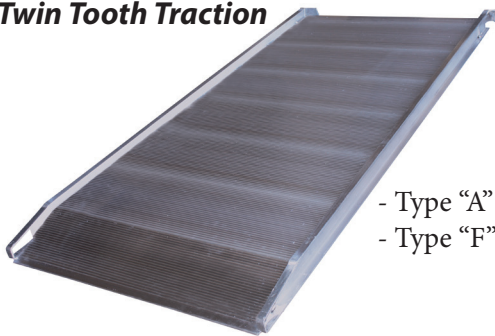

Dock Plates

- Hand slots - for ease of lifting. Handles optional.
- Beveled edges - provide a smooth entry and exit.
- Engineered bend - keeps the plate flush with the dock and truck.
- Safety locking legs - Reversible for refrigerated applications.
- Skid resistant surface - Provides traction and safe footing for personnel.
- Safety yellow on edges - Provides better visibility even in low light situations.

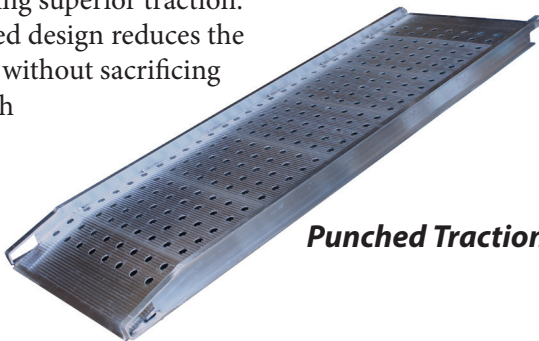

Walk Ramps

Twin Tooth Traction

- Type "A" Apron End
- Type "F" Flush Hook End

- Holes are punched in the material, providing superior traction.
- Punched design reduces the weight without sacrificing strength

Punched Traction

Wheel Ramps

In many cases, smaller trucks are substantially lower than most standard docks. B&P aluminum wheel ramps raise the back of the truck, bringing it more inline with dock height.

Capacity for all models is 12,000 lbs. per ramp.
